Düsseldorf, Germany

join the best: 30 March - 03 April 2020

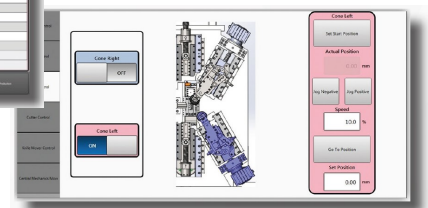

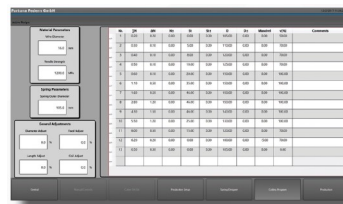

**Hall 16  
Booth F04**

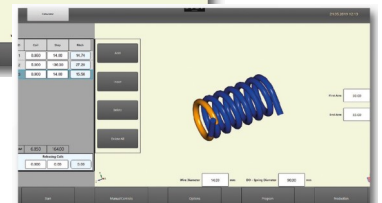

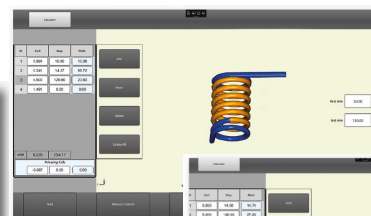

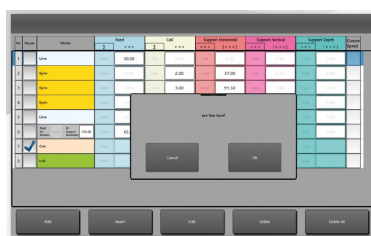

Fortuna Federn and Coiling Equipment invite you to join us at **Hall 16, Booth F04** at **Wire Düsseldorf** to see our new and existing line of machines. This year, FF has expanded their booth size in order to accommodate the 17 machines that we are exhibiting.

We will be demonstrating:

- **COM CNC** spring coiling machines with up to 15 servo controlled axis using **Real Spring Software**— see our Real Spring Software with our user friendly operator panel for fast and easy programming.

- **WIM CNC** spring lathe coiling machines are the most advanced in the world with a wire diameter range from 0.8 mm to 100 mm (.031 inch to 3.937 inch) for **Cold** and **Hot Coiling**. FF will be showing several WIM CNC models and options using our **Spring Designer 3D Software** that provides quick set up and detailed 3D images of your spring design.

- **WIM CNC Light**—this new machine will provide the most cost effective cold spring lathe solution for companies with smaller budgets.
- **GRM-20 V CNC**— a vertical spring end grinding machine with a wire diameter capacity of up to 20 mm.

The Fortuna Federn machines that will be exhibited in Hall 16, Booth F04 will include:

#### Spring Coiling Machines

- COM-5 CNC S Advanced
- COM-12 CNC S Advanced

#### Grinding Machines

- GRM-9
- GRM-20 V **NEW**

#### Bending Machine

- BEM-12

#### Spring Lathe Coiling Machines

- WIM-4 WCS 5AX
- WIM-12-WCS 5AX
- WIM-12 LIGHT **NEW**

#### Automatic Trimming Machines

- CMH-16
- CMH-35

#### Double Torsion Coiling Machines

- LDT OBL-12 U-Forming
- LDT-DT-12 Double Torsion from U-Form

#### Looping Machines

- OBW-2 Manual
- OBW-4 Electric
- OBW-6 Electric
- OBW-8 Electric
- MPK-16 Hydraulic
