Fortuna Federn has expanded their booth size this year (2,600 sq-ft) and will show nearly their entire product line of machines. They will be located in **Hall 16, Booth # H18**.

COM CNC Spring Coiling Machines

Fortuna Federn will demonstrate **COM CNC** spring coiling machines with up to 15 servo controlled axis for fast and precise production of cylindrical and conical compression and extension springs using hard wire material with high tensile strength (2.000 N/mm² (MPa) and more) up to 20 mm (.787") diameter silicon chrome wire. Fortuna Federn's **COM CNC** coiling machines are in use by major spring manufacturers supplying automotive, transportation and farm equipment manufacturers around the world.

WIM CNC Spring Lathe Coiling Machines

Fortuna Federn's **WIM CNC** is the most advanced spring lathe coiler line in the world, with wire diameter ranging from 0.80 mm-100 mm (.031 in- 3.937 in) for both Cold and **Hot coiling**. Fortuna Federn will present several **WIM CNC** models and equipment options with our new Spring Designer 3D Software and upgraded up-to-date technology for 2024.

GRM-CNC Spring End Grinding Machines and more

Fortuna Federn will show the GRM CNC spring end grinding machinery line and many more machines. **See our website for our complete line of production machines and equipment for the Spring Manufacturing Industry.**

If you are planning to attend Wire Düsseldorf, contact Al Uzumcu for more details: al@coilingequipment.com

It's Showtime! Make plans to come to Chicago this October!

The SPRING WORLD EXPO will be bigger and better this year

CASMI has partnered with SMI making the SPRING WORLD EXPO and SYMPOSIUM one of the foremost industry bi-annual events. If you are unable to go to Wire Düsseldorf, the Spring World EXPO will be a must-attend show to see the latest developments in equipment and technology for your spring making needs.

Fortuna Federn & Coiling Equipment will feature machine & software demonstrations

We are planning to demonstrate the WIM-14 CNC Spring Lathe Coiling Machine and show how easy it is to use the Spring Designer 3-D software and the updated technology on our machines.

We are in the initial stages of planning our booth layout. Stay tuned for more details!

**WIM-14 CNC
Spring Lathe Coiling Machine**
Will be demonstrated in our booth

If you have any questions about the CASMI SPRING WORLD EXPO, just give us a call!

Your Rapid Response Team

Many machines and options are available

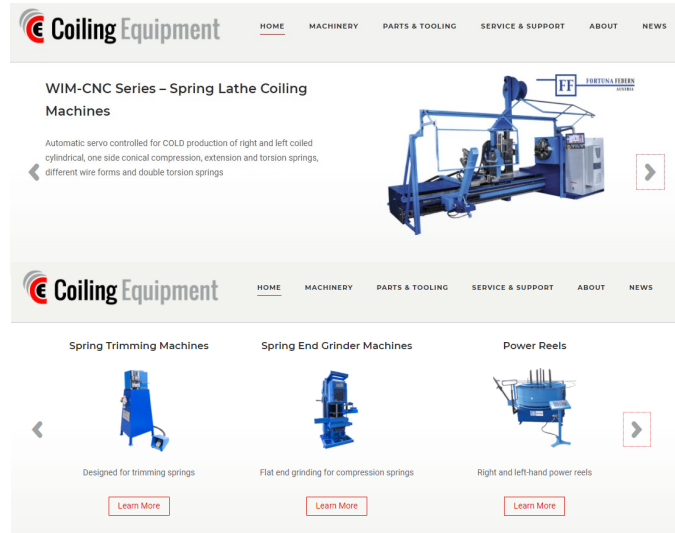

COM-CNC Series – Spring Coiling Machines

• Designed for production of compression, extension, conical (one or both sides) springs and rings

Wire Bending & Forming Machine Spring Looper Machines Hydraulic Spring Looper Machines

Easy production for bending and wire forming Manual and electric spring looping machines Heavy duty spring hook forming machines

[Learn More](#) [Learn More](#) [Learn More](#)

WIM-CNC Series – Spring Lathe Coiling Machines

Automatic servo controlled for COLD production of right and left coiled cylindrical, one side conical compression, extension and torsion springs, different wire forms and double torsion springs

Spring Trimming Machines Spring End Grinder Machines Power Reels

Designed for trimming springs Flat end grinding for compression springs Right and left-hand power reels
