Recap from the Wire Düsseldorf Show

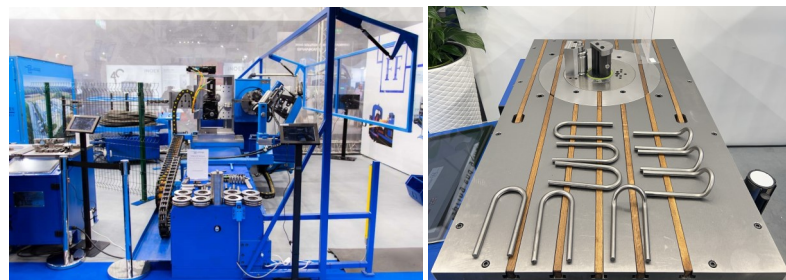

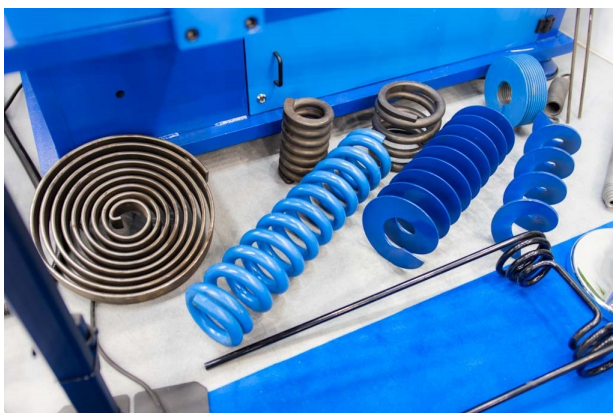

April 15th to 19th, 2024

The Fortuna Federn booth welcomed our customers from all around the world. They came to see the latest technology with our coiling machines and learn how they can improve productivity.

Thank you to all of our customers that attended!

Coiling Equipment Newsletter

Coming Oct 2-4 2024: Spring World in Chicago!

Machines Featured at Spring World this October

WIM-14 CNC

Spring Lathe Coiling Machine

WIM Machines produce compression, extension and torsion springs, as well as different wire forms.

Highly Versatile and Very Productive

Depending on your needs, there is a WIM-CNC machine for you. We have machines that can make everything from compression and extension springs to torsion springs and different wire forms. Machines range from 2 axis up to 5 controlled axis. This gives flexibility for higher productivity, production of different 2-D wire forms and bends on the spring.

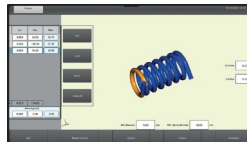

Fast Programming

Spring Designer 3-D Software enables the user to set up the machine fast. The 3-D model preview instantly shows changes in the spring program.

Intuitive

The Spring Template Wizard Tool is intuitive to use that will minimize operator training time.

Easy to Use

The Wizard Template enables the machine set up from blue print to production in 3 steps.

Stop by our booth and see what the WIM machine can do for you!

Machines Featured at Spring World this October

MPK-16 Hydraulic Looping Machine

MPK-16 includes a standard set of tooling

MPK-16 Hydraulic Looper	
Music Wire Diameter	0.276" to 0.630"
Spring O.D.	1.378" to 7.086"
Loop height	From 0.4 to 1xMD
Power Consumption	4.0 kW
Hourly Output	~600 pcs.

BEM-16 Wire Bending Machine

BEM-16 includes a standard set of tooling

BEM-16 Wire Bender	
Music Wire Diameter	0.236" to 0.629"
Max diameter of soft wire	0.866" depends on bend radius
Driven by	Servo
Power Consumption	7 kW
Hourly Output	~600 pcs. with 360° Bend

SHOW MACHINES for SALE
Order before the Show and Save 5%

First Come—First Served

- Contact us for pricing and reserve your machine now!
- Machines will ship after the show ends on October 4th.

Fast Response!

We recognize that a fast response is important when you have an issue or a need!

Gerry Wright Al Uzumcu

We take pride in getting you an answer quickly when you contact us.

Whether you are looking for a replacement part, have a technical question or need a quote on the right machine for your spring making needs—we are ready to get you a timely response.

Go to our website, email or call Al or Gerry directly.

Your Fast Response Team

Many machines and options are available

COM-CNC Series – Spring Coiling Machines

• Designed for production of compression, extension, conical (one or both sides) springs and rings

WIM-CNC Series – Spring Lathe Coiling Machines

Automatic servo controlled for COLD production of right and left coiled cylindrical, one side conical compression, extension and torsion springs, different wire forms and double torsion springs

Wire Bending & Forming Machine

Easy production for bending and wire forming
